

The Best Videos on Meditation, Mindfulness, Relaxation, and Yoga for Parents of Stressed-out Kids

Use Videos on Meditation to Relax with Your Child

Many kids (and parents) have figured out that one of the best ways for them to learn about their world is by watching videos. Going to YouTube or other video channels can be incredibly informative if you want to learn about how to fix something in your house, get the most out of your new cell phone, or to learn about videos on meditation, mindfulness, relaxation and yoga. While there is a wealth of information available, there are also many videos that are not worth watching and may in fact be confusing to understanding how to develop relaxation and stress relief habits. Check out the following list of the videos designed to help kids and adults learn more, updated regularly by our team at South County Child and Family Consultants.
