

Resources for Parents on Minecraft

The way children learn today has changed

dramatically over the course of the years. Today, kids often learn best through electronic activities. This often includes

video games, and especially Minecraft! It is important for parents and teachers to understand Minecraft can help kids learn, rather than just entertain.

Our team of neuropsychologists, school psychologists, and psychology students at South County Child and Family Consultants is committed to searching the Internet and beyond to find reputable, informative, and practical tools to help parents, children, and teens learn new skills and grow old ones. We look for the best information online to help kids diagnosed with ADHD, Learning Disabilities, Executive Functioning Difficulties, struggles with Social Emotional Learning (SEL) skills, Autism, Depression, and Anxiety and provide you with information about how neuropsychological evaluations help identify alternative ways to learn, such as video games like Minecraft. Come back regularly, as the links are updated frequently.
