

Videos on Minecraft

Often, it is most helpful to learn about something not by reading about it, but by watching

a video about it. Both for parents and kids, videos can be a great way to learn more about how videogames, like Minecraft, can improve learning. While there are definitely videos that are not worth watching, we have collected some of the best videos available on the Internet. Check out the excellent videos below, updated regularly by our team at South County Child and Family Consultants. Pay careful attention to which videos are designed for kids and which are designed for adults.
