

Services

South County Child and Family Consultants provides a wide range of neuropsychological testing services and executive functioning evaluations for children, adolescents, and young adults in RI. We also provide a number of [free digital resources](#)

for clinicians, pediatricians and educators to help understand common childhood psychological issues, and offer resources, tips, handouts to share with patients.

Our highly-trained staff of neuropsychologists, psychologists and clinicians have regular office hours **Monday through Friday from 9 a.m. to 5 p.m.**

Our therapeutic health providers **accept many major insurance plans** in Rhode Island including Blue Cross, United Health, and Neighborhood Health.

Neuropsychological testing and mental health services we provide include:

- [Neuropsychological evaluations](#) for ADHD, Autism Spectrum Disorders (ASD) and other Learning Disabilities (LD)
- [Executive Functioning, and Executive Functions Technology Assessments](#)
- [Executive Functioning Consultation](#) which help identify working memory issues and other learning disorders and skills to improve these issues.

- [Educational Technology Training](#)
- [ADHD Evaluations](#)
- Working-memory and executive-skills development
